(vi) When scores are made on a course with no USGA Course or Slope Rating.

g. Posting a Tournament Score

A tournament score is a score made in a competition organized and conducted by a committee in charge of the competition. The competition must identify a winner(s) based on a stipulated round(s), and must be played under the principles of the Rules of Golf. Routine events, such as regular play days, normally are not to be designated as T-scores because they are not significant in the traditions, schedules, formats and membership of the club.

Note: Sundance Men's Club Members should post 16-Man team Events, 8 man team Events, MPGA Events, MGA Events and other forms of competitions as Tournament Rounds. Each member is responsible for posting their own score on the Handicap Computer (The Handicap Committee will post Men's Club Events unless it is otherwise designated on the Event Handout.)

Score cards should be adjusted for equitable stroke before they are posted on the computer for handicap purposes.

Equitable Stroke Control

Equitable Stroke Control (ESC) is the downward adjustment of individual hole scores for handicap purposes in order to make handicaps more representative of a player's potential scoring ability. ESC sets a maximum number that a player can post on any hole depending on the player's Course Handicap. ESC is used only when a player's actual or most likely score exceeds his maximum number based on the table below. There is no limit to the number of holes on which a player may adjust his score.

EQUITABLE STROKE CONTROL

Course Handicap	Maximum Number On Any Hole
9 or less	Double Bogey*
10 through 19	7
20 through 29	8
30 through 39	9
40 or more	10
